

Chamber of Deputies Approves Foreign Investment Law Reform Without Changes

Mexico City, October 29, 2026

On October 27, 2026, the Chamber of Deputies approved, without modifications, the amendment to the Foreign Investment Law. This concluded the legislative process in the Federal Congress, and the decree was submitted to the Federal Executive for its enactment and publication in the Federal Official Gazette (the “DOF”). Given that the amendment stems from an initiative of the President of the Republic, no objections are expected to be raised.

The amendment will become effective on the day following its publication in the DOF. Thereafter, the National Foreign Investment Commission will have up to 180 calendar days to issue and publish the general resolution determining the asset threshold.

The transitional provisions do not establish specific rules for the period between the effective date of the amendment and the publication of such resolution, nor for transactions signed beforehand that are not yet under review and whose closing occurs thereafter. Accordingly, **the amendment could apply even to transactions that have already been signed but have not yet closed**. Furthermore, no deadline is established for amending the Regulations of the Foreign Investment Law and the National Registry of Foreign Investments, to which reference is made for the filing and resolution of applications.

The approved bill does not modify the text previously submitted by the Senate. Click [here](#) to read Galicia’s previous update detailing the amendment.
